EDUCATION

Certificate Computers and Information Technology

GPA: 3.87/ 4.0

McGill University (2022)

Montreal, Quebec, H3A 2M7

B. Sc Biochemistry

Concordia University (2012)

Montreal, Quebec H3G 1M8

PROGRAMMING SKILLS

Java, SQL (MySQL), Microservices, Spring Boot, REST, Android Studio, Kotlin, Git/GitHub, AWS services, Javascript, HTML/CSS

LANGUAGES

English (native speaker)

French (Intermediate)

CAREER OBJECTIVE

Throughout my schooling I have focused on developing proficiency in scalable and well-documented code. Currently, I seek to bring my long experience working both collaboratively as well as independently to bear on new and challenging programming projects. I am excited about the prospect of expanding my skill set and growing with a product-driven company.

TECHNICAL EXPERIENCE

Certificate Computers and Information Technology (McGill University 2021-2022)

Focused on the development of an in-depth understanding of the principles of information technology and its applications, McGill's rigorous coursework gave me a solid foundation in the concepts and techniques required for the effective planning, design, and development of software applications and systems, Internet technologies, applied computer knowledge, and networking. Centered on Java programming, proficiency in all basic operations along with advanced concepts such as patterns, data structures and testing were developed. Additionally, a solid grounding in database design (MySQL, SQL Server), networking, and system security was given. Multiple projects using Android Studio and web services (Microservices, REST, SOAP) using Spring Boot were completed and mastery of the core techniques acquired. Full front and backend web development including javascript, HTML/CSS were covered practiced upon.

CAREER EXPERIENCE

Vert La Bouche Catering (May 2014-Jan 2021) Owner/Director

Managed staff members (teams of more than a dozen employees), organized and executed catered events ranging from 50-350 guests. Negotiated contracts with corporate clients including Concordia UC, McGill UC, L'Oréal Canada. Generated procedures for operations and regulation compliance.

La Grind Cafe (March 2017-March 2020) Owner/Director

Generated the full design and development process of a café enterprise. Developed business plans, secured funding, oversaw remodels and build out. Managed staff hiring and produced guidelines and training procedure for staff. Maintained quality control and set timelines and oversaw the execution of tasks to meet deadlines.
